Red Dog Ash - Clock on the Wall

Take an hour of time from the clock on the wall
It's still running fast since we changed time last fall
Just wait 'til the spring it'll be right again
And maybe with time you'll be home by then
Left the lights on the house past the first of the year
I only put 'em up just in case you appeared
But Christmas has passed all the holidays are done
But there's no end in sight for my nights all alone
In the back of my mind I know that we're through
I can't let myself think that you've found someone new
So I've left all your things right where they belong
Just waiting right here for you to come home
