Some things never change
Some things will remain
And I always hope and pray
That I could change that day
And maybe find a way
To make you come to me and stay ...

Chorus:

Yesterday doesn't matter
Tommorow we may not ever know
So listen to me now
As I try to say
That all I want is you today ...
If you only knew
What you put me through
You might not have gone away
Have you ever felt
Even for a while
Something's missin' in your life ...

(Repeat Chorus)

All I want is you today
If you don't need me anymore

Don't say it

If you don't love me anymore

Don't show it

Because this life I have is yours

So maybe you could try not to love me again ...

Chorus 2:

Yesterday doesn't matter

Tommorow I just might be gone

So listen to me now

As I try to say

That all I want is you today ...

All I want is you today ...
