"Over You"

Visit "[Over You](#)" on MotoLyrics.com

I could pick this city up for you
And move it a thousand miles right to you
And I could dry these oceans in my head
But I'd still see your face dripping wet

You and I, couldn't last forever
You and I, on this rollercoaster

I'll never get over you
I'll never get over you
I'll never get over you
Even though I'll try, it's always you I'll find
I'll never get over you

And you scratch my skin red with your words
And make me bleed the truth until it hurts
And I'll strip my memories from this place
And just leave my heart on my escape

You and I, couldn't last forever
You and I, on this rollercoaster

I'll never get over you
I'll never get over you
I'll never get over you
Even though I'll try, it's always you inside

Over you
Over you
Over
Over you

I'll never get over you
I'll never get over you
I'll never get over you
Even though I'll try, it's always you I'll find
I'll never get over you

Over...
