[scratching of]  
(But they're all)  
(But they're all)  
[KRS-One] (But they're all just wick-wick-wack) [x2]

[VERSE 1]  
Now with a poem from the mind the Tone reaches a  
microphone  
Best leave me alone cause I'm a Badder Boy than Sean  
Combs  
[???] like Bivins, rappers get torn to smithereens  
I'm livin to destroy Mikes like Robin Givens  
But it's a given that I'm the absolut best since  
MC's play the faggot role better than the Fresh Prince  
But not from Bel-Air, I'm straight out of Brooklyn,  
resident  
Seen your movie, gee, you didn't represent  
But Red Hot can-can, yes, I can-can  
My Method will 'bring the pain' simply cause I'm the  
man  
So be a fan and let the R-e-d expand over band  
Fuck around, you get more Japs than Japan  
Like that

[CHORUS x2]  
You better recognize I represent like that  
I came to take your dollars and your cents like that  
MC's be frontin but their rap styles lack  
(But they're all just wick-wick-wack)

[VERSE 2]  
I got niggas foamin at the mouth to get my style like  
rabies  
I'm robbin MC's like Sugarhill did in the 80's  
Hey ladies, can't you see I'm best at my sport and  
Those rap styles you like got more Airs [/errors] than  
Jordan  
According to the guys though I got the live flow  
They hate the jive flow like young blacks hate the five-o  
So creep to my TLC if you're yearnin  
I wanna fuck Left Eye but I heard she's burnin..

I'm earnin mad chips to keep my pockets thick  
While yours are anorexic like that [edited] chick  
Sick, I got the style that you need to pick  
With a mic I'm Handyman like the Damon Wayans flick  
Like that

[CHORUS]

[VERSE 3]

Now who's got the rap to keep the crap niggas jeally  
My style reaches out to the young like R. Kelly  
[??????] gotta have the beast in his belly  
More [????] than skelly, more Thunder than Shelly  
Pick up the telly and tell and friend and tell a friend  
Red Hot's got niggas on their bended knees like Boyz II  
Men  
You can't defend if you wind up on my stress list  
Bet this, High School SAT's couldn't test this  
I'm leavin wack MC's holy for Heaven  
Kiss this sweet Earth good-bye, you're booty like Tevin  
Campbell, this is just an example  
How I dismantle MC's and blow em out like candles  
Like that

[CHORUS]
