Everybody
we've gotta fight for ourselves

Everybody
we've gotta fight for ourselves.
Everybody
we've gotta fight for ourselves

Everybody
we've gotta fight for ourselves.

So many people
so many problems

There in the pretty city lights
where we've thrown it all away.
Well
if life is here before my eyes
then I find it hard to see
How the methods that we're told to use are gonna
make us free.

Until then I say :
Everybody
we've gotta fight for ourselves

Everybody
we've gotta fight for ourselves.

All through the mystery
all through the heartache

She's got the only single thing that I'd never throw
away.
When lightning strikes for the second time you'd come
and pull me through.
It's a battle that we all must make
so show me what to do -
And you said:

Everybody

we've got to fight for ourselves

Everybody

we've got to fight for ourselves.

There's a feeling growing that is in this land

There's a soul that's burning and it's in your hand.

Everybody

we've got to fight for ourselves

fight for ourselves.

So many people

so many problems

...

Everybody

we've got to fight for ourselves

...

Fight for ourselves

we've gotta fight for ourselves.

Everybody

fight for ourselves -

Everybody's gotta fight for themselves -

Everybody

fight for ourselves - fight

fight -

Everybody

fight for ourselves

everybody

fight for ourselves

Everybody.we've gottafightforourselves!
