Verse 1:

I've been watching your mama for a long time  
And that bitch is fine  
Every time I go to her house  
She kiss me on the cheek  
And fix me something to eat  
I know the bitch freaky, yo check it  
Cause every time I see her  
She walking around half-naked  
I'm checking out her underwear  
And when she sit down, I can see her pussy hair  
And my dick getting bigger by the minute  
I'm thinking about the pussy, wishing I was in it  
She want me to cut your grass  
But I'm thinking about cutting that ass  
And I believe I can get them draws  
365 cause she passed menopause  
I wanna dive in  
And bust a nut on them goddamn Depends  
Hope she's like you  
Cause I'm a make her sing on the mike like Marilyn  
Macao  
So before you go to sleep tonight  
You should know that I'm a be trying to fuck your mama

Verse 2:

Now you can get mad, ho  
But you the one had me taking her to play bingo  
Picking her up from church, taking her shopping  
I was with it but your daddy could've did it  
I'm making these confessions  
Cause she wearing them tight-ass dresses  
I wanna knock the boots and the socks  
Hit her with this big fat cock and let your daddy watch  
What a great adventure  
When I make her suck my dick and knock out them  
dentures  
Don't look so astounded  
When I first met her, I told you she was well-rounded  
You should've known shit wasn't right  
Cause she always taking my side when we fight  
And when I go over, she turn on the 8-track

And me and her go way back  
Your old man ain't hitting it right  
That bitch needs some young pipe  
And I'm the motherfucking plumber  
I wanna fuck your mama

Verse 3:

I wanna fuck your mama, girl  
And have that pussy dripping like a wet jheri curl  
When I hit it like a Green Bay Packer  
And make that pussy pop like a firecracker  
It's hard to concede  
But why else would I be painting her house for free?  
It ain't for my health  
Cause I can make her climb them walls  
And take all those Geritols  
Whenever I call for you  
She telling me all this shit she been through  
How she nearly had a heart attack eating chili  
And how your pops can't operate his Mr. Willie  
She wasn't saying that cause I'm her son-in-law  
She want me to stick this bone in her  
And you know I'm a do my duty  
I had a dream about busting a nut in her booty  
And rubbing my cum in her face  
And letting that freak have a goddamn taste  
I'm a tell you straight up cause I know you hate the  
drama  
I wanna fuck your mama
