NIGHT IS FALLIN' Äf' SPENCER BOHREN, 1996

Night is Fallin', watch the shadows play
Night is Fallin', watch the shadows play
Say goodbye
To another long, long, lonely day

When the Sun goes down it steals away the light
When the Sun goes down, it steals away the light
Then I'm alone
Another long, long, lonely night

Night is Fallin', the devil's on his way
Spirits callin', they'll be takin' me away
Say goodbye
To another long, long, lonely day

- bridge -

Every night is longer than the one before
Time goes by, every hour passes slower
Days are long, but the nights don't ever end
If only I could see you once again

Night is Fallin'
Night is Fallin'
