Don't you know that I work hard?  
Don't you know that I play hard?  
Don't you know it's a hard way  
Trace the bus lines in the state?  
Don't you know that I see, she'd strip for me

We're moving around  
Me 'n' she how the grass barn coming down  
And we do it the same  
In the name of glory, filth and fame

Things are going okay  
Find a little puppy love makes a day  
Once in the morning and once at night

Don't you know that I work hard?  
Don't you know that I play hard?  
Don't you know it's a hard way  
Trace the bus lines in the state?  
Don't you know that I see, she'd strip for me?

Me and Frankie, we cried  
Some evenings outside where we lie  
When another one comes  
Will we go the night into the sun

Sewed a couple of new  
Times like that's the only thing to do  
Oh, once in the morning and once at night

Hey, you know that I work hard  
Don't you know that I play hard?  
Don't you know it's a hard way  
Trace the bus lines in the state?  
You know that I see, oh, she'd strip for me, yeah
