Oh, time just spent sitting back
oh, we had a lot to learn
cause all along we had our fun
and then it turned
it turned around and
now we find the love we had
oh, has slipped away
oh, sometimes we lose the games we play
what can i say?

anyway

oh, build a bridge ya' bring both sides together
yeah, build a bridge ya' bring both sides together
yeah, yeah, yeah
yeah, yeah
well

So now little girl, since you went away
I've been too inspired
Oh, on the way pick me up brother
could you find the time
Little girl I really rock you
Hey, fell back in love I have you
I'll see it through
Oh, but you went away and I'm feelin' blue
I'm missin' you

Maybe you miss me too
