I have arrived at the castle  
I have come to fight  
The evil inside the castle  
All throughout the night

The castle gate opens  
I'm ready to go inside  
I'm gonna fight in the open  
I will fight the enemies in sight

I'm gonna vanquish my foes  
Who stand in my way  
I'm gonna bring them down to their toes  
And cause them pain

I'm gonna take out my sword  
I'm going to attack my prey  
I'm gonna fight to the death  
and kill them all to death

I'm gonna vanquish my foes  
Who stand in my way  
I'm gonna bring them down to their toes  
And cause them pain

I will not give up  
I will fight for honor
