I'm outside
I'm looking up at the beautiful sky at night
Then I sighed
I am wondering outside at this time of night

I am frightened (Yes I am)
But I have You (Oh yes now)
I won't be scared (I know that)
Cause I have You (Oh Jesus)

I'm out in the moonlight
I'm going out on an exciting adventure
I know that the moonlight
Can give light while I'm walking on my way

In the dark
I am looking around to find the light I need
Then it shines
I see the light that shines right in front of me

I am frightened (Yes I am)
But I have You (Oh yes now)
I won't be scared (I know that)
Cause I have You (Oh Jesus)

I'm out in the moonlight
I'm going out on an exciting adventure
I know that the moonlight
Can give light while I'm walking on my way

I am frightened (Yes I am)
But I have You (Oh yes now)
I won't be scared (I know that)
Cause I have You (Oh Jesus)

I'm out in the moonlight
I'm going out on an exciting adventure
I know that the moonlight
Can give light while I'm walking on my way
