Two-faced witch keep me up all night
Another shot at the crack of daylight
Diggin' her nails underneath my skin
You know I hate her but I gotta let her in

Chorus

When I get that itch I'm like a son of a bitch
Back on the Bitch
When I get that itch I'm gettin' back on the bitch

Bitch in heat baby I'm in hell
I thought I knew her but it's hard to tell
Different mood for a different day
Dirty habits always put a smile on her face

Chorus

Bitches brew it's got me and it's got you
Now who you tryin' to fool
Everybody's got a bitch baby you do too
You know you do, who you tryin' to fool
I'll show you somethin' new, I got your bitch for you

Bitches brew it's got me and it's got you
Now who you tryin' to fool
Everybody's got a bitch baby you do too

Two time witch keep me up all night
Another shot at the crack of daylight
Diggin' her nails underneath my skin
You know I hate her but I gotta let her in

Chorus
