When the weather gets hot there's a fever that you get  
Burnin' like a fire below  
So you cover it up with a pretty white dress  
Slippin' out the window where you ain't allowed to go  
I know that your daddy thinks you're a good lil' girl Pure  
and clean  
But you got a plan of your own  
Every night when I get you alone

Chorus

Knock me out blow my fuse  
There ain't nothin' that she won't do  
Shotgun Kisses she ain't shy  
There ain't nothin' that she won't try  
Get up off your knees bend over backwards for me  
Daddy's little baby made my dreams come true  
Cause there ain't nothin' that she won't do

Talkin' like a porn queen chuggin' cheap wine  
Right out by the back of the bar  
You're too young to drink old enough to drive  
Always end up in the back of my car

I know that your daddy thinks you're a good lil' girl Pure  
and clean  
But you got a plan of your own  
Every night when I get you alone

Chorus

Everybody's got the wrong impression  
Then they try and tell you wrong from right  
All you want's a little lovin' get you thru the night

Chorus
