[Intro:]

Yall gota feel me on this one
Girl we done been through it
I like to call her like, Like my numba one sidechick
But she cool with it though
Yea
I dont care what nobody say
She gona ride For Me

She used to get jelous
and try to be demandin'
I didnt want a family
and now she understand me
She used to wana fight me
she wanted to be wifey
She tried to leave me for that lame but he wasn't like
me
Then she came back
And we set the rules
If i can have a girl
then you can have a dude
And now we both cool
And she my ride or die
And with a chick like that bet cha boy can fly
Sex feelin' good
My little toy friend
It's kind of like my girlfriend got a boyfriend
My little secret weapon
She know when to check in
If I tell her she will leave dat in a second
I know that homie love her
So dude can keep her
I'll never be committed
So it's rude to sweep her
It's like us against the world when we under covers
I try to front but I love her

[Chorus Bobby v:]

I dont care what the people may say
I know they gone hate
[3x] But thats my baby
And I know she gone ride

Even though I got chicks on the side she my nigga for
life

[3x] But thats my baby

And i kno she gone ride on me

[4x] She aint goin no where

Shes my number one girl

she aint goin no where oh no

[Bobby v:]

The streets been telling me

That chu been doin this, and doin that

But its irrelevant, because i know that you always got
my back

My sunshine on a rainy day

Unlike the weather you never change

'Cause your my boo, and ima never ever leave you

She my girl/homie if i loose her ill feel like a dead
homie

She love me with out the bread on me

I cuff her like dickies, i sneak her over for a little

quickie, no evidence with no hickies

Text me when he sleepin I write back you crazy, she
write LOL I just miss you baby

My number one chick, in the draft she my number one
pick

especially on some 101 ish

Im her number one daddy, yea he make her happy, but
the eyes dont lie i know she wish she had me

It's like us against the world when we under covers

I try to front but I love her

[Chorus Bobby v:]

I dont care what the people may say

I know they gone hate

[3x] But thats my baby

And I know she gone ride

Even though I got chicks on the side she my nigga for
life

[3x] But thats my baby

And i kno she gone ride on me

[8x] She aint goin no where

Shes my number one girl

she aint goin no where oh no

See alot of come and go

But she aint goin no where
