You can make the best of moments in life  
You can take the path that leads from darkness  
Can you feel the power of the sunlight  
Our future is full of hope and promise

When you've given up feeling lost in the maze  
Wondering, wonder when you'll find your way home  
If ever

We can never stop the hands of time  
On Earth as it is in Heaven  
No need to fear the other side

You have always wondered what it feels like  
You have always known the truth that's in sight  
Can you feel the hour is approaching?  
When you add it up, we are locked in the cage  
All prisoners, lost until we're found

On Earth as it is in Heaven  
Stop the hands of time  
On Earth as it is in Heaven  
No need to fear the other side

On Earth as it is in Heaven  
Stop the hands of time  
On Earth as it is in Heaven  
No need to fear the other side

No reason  
No rhyme

No reason  
No rhyme

On Earth as it is in Heaven  
No reason  
No rhyme  
On Earth
