You mean so much to me  
I believe this love was meant to be  
My heart belongs to only you  
Let these words of love speak so true

I've got to find my way  
I've got to find my way back to you  
To let you know that I would give  
All I have to hold you  
You're the reason I live

I'll be the one you can turn to  
When the world comes down on you

Pay no mind to what people have say (?)  
Because this love will never fade away

I've got to find my way  
I've got to find my way back to you  
To let you know that I would give  
All I have to hold you  
You're the reason I live

You're the reason

Only you can take me  
To the place we were before  
We've got to see this love through

You're the reason I live

I live for the moments we share together

You're the reason I live

Need to have you back where you belong

I've got to find some way

I've got to find my way back to you  
To let you know that I would give

All I have to hold you  
You're the reason I live

Only you can take me  
To the place we were before  
We've got to see this love through

I've got to find my way back to you  
To let you know that I would give All I have to hold you  
You're the reason I live
