"Attention all passengers, Caribbean Air Flight 714  
departing for Nassau is now boarding at Gate Three"

Flying in darkness over Bermuda  
Going down south duty free  
What's that sound I hear, could it be Jamaica  
Clock says twelve but the sky says three

If your plane goes down in Jet Town  
You can disappear  
Caribbean blue in Jet Town

There was a man they called Gogan who booked the  
flight  
We had a few drinks, then he spent the night  
He said, sure gets tough bein' so damned international  
But if the goin' gets rough you can wreck a hotel

If your plane goes down in Jet Town  
Caribbean blue in Jet Town  
Go down with me...

There's a writer next door in a sugar shack  
He had a bestseller out in paperback  
But you don't need money here in paradise  
Just the American Express card and a heart of ice

If your plane goes down in Jet Town  
Caribbean blue in Jet Town  
(Ooh...)

When your plane goes down in Jet Town  
Caribbean blue in Jet Town  
Go down with me...

Jet Town  
(Jet Town)
