

Remember August

"Save Our Lives"

Visit "[Save Our Lives](#)" on MotoLyrics.com

The night is all we have
To bridge the gap of things we left behind
So long ago

To realize the times we've lost
But at what cost
Is what we have just what we want?

So let's talk, talk, talk this over
This nightfall's getting colder
We've both been waiting all our lives
And I know we'll
Walk, walk, walk it over
And we're both getting older
Save our lives, save our lives

Our favorite songs they play again
And here's to friends that we lost along the way

The night's we had, the thoughts we shared
So unprepared for this life that I chose to lead

Chorus

And you know better than this line
Words are so hard the second time
Let's break the wall down
(x2)
