

Remember August

"The Mourning After"

Visit "[The Mourning After](#)" on MotoLyrics.com

I wait outside your bedroom window
And I know we're still alive
And this winter cold it burns me
Like you have so many times

And when we fall
We'll say it on our own
We fall together
Just like before

And this winter night is dying
Like I am for you
And we've had our share of first times
And mistakes we've made a few

And now we're way far away
Way far away

And when we fall
We'll say it on our own
We fall together
Just like before
And when we fall
We'll say it on our own
'Cause we're together
Unlike before

Bridge

Chorus

I'm falling
And we fall together
