### "Miracle"

Time, time makes a mockery  
Of all your dreams, this is a certainty  
You would cry, if you knew

Life, life has no alibis  
For all it's crimes, this I can testify  
You would cry, if you knew  
What it could do to you  
You would cry if you knew

Chorus:  
Am I fool to expect a miracle  
Such a fool to be so gullible  
Oh I need a miracle  
Tonight...

Once we were innocent  
But all our lives  
We've been taught to repent

I would cry 'cause I knew  
What you were going through  
I would cry 'cause I knew

Repeat chorus
