Flesh And Blood

If you never plan to come out of your shell, you're
never gonna get well.

I understand your reasons not to.

What you don't know is what you're afraid of.

And I'm afraid of it to... But can I even talk to you
again?

Oh part of me wants to call you up, and talk to you like
a friend.

And there's a part of me that wants to shut you out, and
never see your face

Again.

Chorus

How can we be like enemies when we're only flesh and
blood?

What does it take to make your heart bleed, daddy
aren't we enough?

You can get through there's nothing stopping you from
getting to us

No one can take a way the fact that we're only...flesh
and blood

For years I've been following your case, It's the only
time I see your face

And we've learned to live without you.

Who you don't know is who you're afraid of

And we're afraid of you too

But will we ever talk to you again?

Oh part of me wants to call you up, just talk to you like a
friend

There's a part of me that wants to shut you out, and
never see your face again.

Chorus

I want to make you laugh, and I want a chance to know
you better.

I want to hear you sing beside me now.

We're just like you.

Chorus

I want to make you laugh, I want a chance to know you
better

I want to hear you sing beside me now... flesh and
blood

I'm a part of you, and I miss you.

A song for you, for only you.
