You can't hide it from me, admit it baby
'Cause I'm wise to your disguise
I've seen you love me with your eyes

Even if you think I'm a fool and I just can't tell
Then you don't know me well
Won't you come over here and break the ice?
It would be so nice

It's what you want when you're around me
You're a little bit shy and I feel the need
And I can tell that you're happy you found me

(Just give it up)
Why wait around when you know what you're feeling?
(Give it up)
I look through your eyes I can see that you want
somebody
(Give it up)
It could feel so good to get into it

Give it up, give it up, you want it baby
Give it up, give it up, you know you got me
Come on, come on, come on and give it up

I can't, I can't lie to you
Now we can all tell stories so come over here and love
me
Even if you think I'm a fool and I just can't tell
Sorry I know you well and I know you will
Come over here and love me

It's what you want when you're around me
You're a little bit shy and I feel the need
And I can tell that you're happy you found me

(Just give it up)
Why wait around when you know what you're feeling?
(Give it up)
I look through your eyes I can see that you want
somebody
(Give it up)

It could feel so good to get into it

Give it up, give it up, you want it baby
Give it up, give it up, you know you got me
Come on, come on, come on and give it up

So dream your way into my life
'Cause baby I'll give you tonight
I'll bring all your pictures to life

Give it up, give it up, give it up, give it up
Give it up
(Oh God)
Give it up, just give it up, give it up

Give it up, give it up, yeah
Give it up, give it up
C'mon, c'mon, c'mon, c'mon, give it up
(Give it up)
Won't you give it up baby tonight?
(Give it up, give it up)

You know, you know that you're mine
(Give it up)
C'mon, let's give it up, c'mon baby
(Give it up)

Give it up, give it up, yeah
(Give it up)
Give it up, give it up
(Give it up)

Feels so good to get into it, it feels so good, it feels so
good
(Give it up, give it up)
Give it up, give it up, give it up
Baby c'mon
