Let me tell you baby, I sure know how to please a
woman, yes I do now
Now I can make you feel better than you've ever felt
before, yes I can now
Now when I start lovin', women hate for me to stop
A whole lot of men envy me for what I've got
Ow! I'm a man & a half; that's what I am, a man & a
half

Now look here
When I walk, the birds & the bees stop lovin' & look at
me now, look here
When I talk, the whole wide world listen to my words,
huh
I'm a man like any other man, I say without a doubt
Wow, what makes me different is the hand that knocks
women out
I'm a man & a half; I'm trapped up in one; no brash,
just facts

Only once in a lifetime a man like me comes along
Shakespeare wrote poems about me even before I was
born
Thunder gave me a lift & lightnin' knocked on your
door
Your chance in a lifetime, woman, might not have a
number
To be loved by a man and a half, hey that's what I am,
look here
A man, a camel went across the desert & there was no
one in sight
Let me tell y'all one thing: the camel died tryin'
But your man & a half is here lovin' you tonight
Good God, I'm a man & a half, a man (shouting)
... & fade
