"Our Time Has Come"

Visit "[Our Time Has Come](#)" on MotoLyrics.com

Our time has come, we're gonna
Walk in the sun,oh
I've packed my hopes,
We're ready to roll,
We're on our way
With a little faith we can
Step from the shadows and
Tell everyone
Turn the spotlight on
Now our time has come

Our time has come, we're heading
Strait for the sun, oh
With heart and soul,
Watch us go,
We're on our way
With a little love we know
Nothing can stop us, so
Tell everyone
Turn the spotlight on
Now our time has come

Are you ready to wish upon a star?
Well I'll be ready to follow my own heart
Are you ready to be set free?
Well I'll be ready to reach out for that dream
Just over the horizon

Our time has come, we're gonna
Walk in the sun,oh
I've packed my hopes,
We're ready to roll,
We're on our way
With a little faith we can
Step from the shadows and
Tell everyone
Turn the spotlight on
Now our time has come

Are you ready to wish upon a star?
Well I'll be ready to follow my own heart

Are you ready to be set free?
Well I'll be ready to reach out for that dream
Just over the horizon

Our time has come we're gonna
Walk in the sun, oh
I've packed my hopes,
We're ready to roll,
We're on our way
With a little love we know
Nothing can stop us, so
Tell everyone
Turn the spotlight on
Now our time has come

Can you feel the power, now
The day is ours
For you and I
There comes a time
To hold our heads high
Make a little history
Each time we dare to dream
Tell everyone
Turn the spotlight on
Now our time has come

Our time has come we're gonna
Walk in the sun, oh
I've packed my hopes,
We're ready to roll,
We're on our way
Make a little history
Each time we dare to dream
Tell everyone
Turn the spotlight on
Now our time has come
Our time has come
Our time
