You turn me on

You put electric through my body

I'm just of shallow flesh since

Guilt robbed me of my emotion

You can paint my lips

and you can fix my hair up darling

I'll answer to the name you give me

Tin Tallulah

I wanna be your doll

I wanna be your sweet sweet baby

I wanna be your doll

Be your ultimator masturbator

You can stitch my wounds

My knees are torn from years of kneeling

Now I have no feelings

I can give myself to you dear

Well love is hard to give

But love is easy to take

Thinkers make bad lovers

Better put your IQ up for sale

I wanna be your doll

I wanna be your sweet sweet baby

I wanna be your doll

Be your ultimator masturbator

You can stitch my wounds

And you can fix my hair up darling

Well I have been waiting for this moment

All of my life

I wanna be your doll

I wanna be your sweet sweet baby

I wanna be your doll

Be your ultimator masturbator
