You got a man that treats you like a baby

You sit at home and you go crazy

He doesn't treat you right

He falls asleep every night

[chorus]

I know it's hard

And I know it's tough now baby

It doesn't take a dirty mind

To tell you how to spend your time

Take a hold of yourself

You got a house and you got money

You got a car but you don't have honey

Running down your thighs

Every single night
