Why can't we see eye to eye?
I feel you don't want to try
Cause you won't see me as I am
If you can't accept in me
The good with the bad
Then you won't see me cry again
You won't see me
Why'd you want to go and walk away?
I have got some things to say
But you won't see me as I am
If you can't accept in me
The good with the bad
Then you won't see me try again
You won't see me
I'll be movin on, I'll be long gone

You are in my range
I am in your sight
You say, things don't change
I say, they just might

You just might find that you can trust in me
If you look at more than just what you want to see
But you won't see me as I am
If you can't accept in me
The good with the bad
Then you won't see me around here again
You won't see me
I'll be movin on, I'll be long gone
