(BeBe Winans, Nigel Lowis)

You won my heart, right from the start
And it occurred to me, I would be lost without your
tenderness

Such sweet caress, and still none the less
I cannot live without you

Chorus:

I'm so glad about it and I know it shows
Positive about it, that I'm so in love
Nothing's wrong about it, heart truly knows
Gonna tell the world about it, that I'm so in love with
you

Everytime I think of you
I'm reminded of the special day we met
When all the world began to sing such sweet harmony
For all the love you bring
Oh, each day that passes by offers something new
Another reason why to fall in love with you
So what more can I do?

Chorus

We know it's true
I'm in love with you, yes I am
And it's good to know
That you feel the same way, same way too
Chorus
