[Incomprehensible]

Lord, there's no way I could hide the emptiness inside  
So I knew what I had to do  
Stretch my faith out on You, I knew You would come  
through  
The realest love I found in You

You said You would take care of me  
If I just believe then I will see  
I can't make it no other way, no  
So I must follow where You go

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no because I

When it seemed all hope was gone, You said to depend  
on  
And put my trust in only You, yeah  
When I gave in totally, something took over me  
You gave my heart perfect peace

You said You would take care of me  
If I just believe then I will see  
I can't make it no other way, no  
So I must follow where You go

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love

And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no  
Because I found real love

I found loving, I found loving  
I found You  
I found loving, I found loving  
I found peace, I gotta let the world know

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no

Because I found real love  
Lord, when I gave You my trust  
You proved there is no greater love  
And there's no need to look no further, no because I
