Dear sister, something's been going on  
It's me and my mister, now I know I'm wrong

Cos' I hurt and I'm sore but  
I can't help thinking about him so  
I hurt and what's more  
I don't think I can let him go

Chorus:  
So won't you help me Suzanne  
Help me try to understand  
Won't you help me Suzanne  
Cos' I've just got to say good-bye  
Say good-bye to my man

Dear sister, I lay awake some nights  
Thinking should I risk a...  
Should I risk another fight

Cos' I hurt and I'm sore but  
I'm still thinking about him so  
I hurt and what's more  
I don't think I can let him go

Chorus

Lately love's like lead it weighs me down  
I don't know if I'm safe and sound  
My favourite colour's green not black and blue  
There must be something you can do

Chorus

Fade
