Whowhowhohoo....

When you see my face, streaked with tears, and you're  
wonderin' what's been goin' on here You take my hand,  
and we start to fly, The only question is-is why...

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

We sail past the clouds,  
The city, is so far down,  
The sky is blue,  
We're floating and I never wanna come back down

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

We sway like this,  
We sway like that,  
A simple kiss, and the world seems flat, I'm so far  
away, yet I'm so near, Wondering what magical thing is  
happening here

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

Whoa-oha...

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...

Free like you, like me...

Up, down, all around,

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

Free like you, like me...

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...

Like ME...!

Up, down, all around,  
I see you smilin' back at me  
Up, down, all around,  
I wish i could be free...  
Free like you, like me...
