ELEANOR:

Say good night, I'll be the light, and pray your soul to
keep
It's been fun, but day is done, and even heroes sleep.
Close your eyes, and maybe then you'll fly
to the planets and back again
And bring those dragons to their woeful end
pretend and close your eyes
My little hero, My little boy
My little hero, Close your eyes...

Shadows fall and voices call, but you're not easy to
scare
Sleep, you'll find a world designed to do anything you
dare.
Close your eyes and maybe then you'll crush the
enemy
and find a friend
And have adventures that will never end - pretend and
close your eyes
My little hero, Close your eyes
My little hero, My little boy...
