I'll wait til the clock strikes a nerve to spend some
time with you
I can't stand to depend on the shadow I cast alone
when we should
For the sake of making a statement
Let's make our presence known
Let's show them what we're made of
We'll show up in our outfits we planned ahead
To meet the qualifications for a special occasion
Today is your day today is our day
Making up for lost time
Making a scene oh yeah!

You've made a lasting impression
And if it doesn't feel right
Then I just can't go wrong
I've been sleeping with the lights on
So if I wake in the night
Your picture is clearly in sight

So let's meet at the mouth for a kiss
That's been so long overdue
No thanks to the two thousands of miles
And the touring we always do
(It makes me miss you more)

You've made a lasting impression
And if it doesn't feel right
Then I just can't go wrong
I've been sleeping with the lights on
So if I wake in the night
Your picture is clearly in sight

I could explode
Cuz you just never, you never know
It would suit the moment perfectly

You've made a lasting impression
And if it doesn't feel right
Then I just can't go wrong
I've been sleeping with the lights on

So if I wake in the night
You've made a lasting impression
And if it doesn't feel right
Then I just can't go wrong
I've been sleeping with the lights on
So if I wake in the night
Your picture is clearly in sight

We can't go wrong...
We can't go wrong...
