This is the distance
Between point A and point B
Dots of completion
Meeting the goal we've achieved
And it's the best thing
To ever enter my life
After all this time
I'm still taken by surprise

Everyday not a stranger calls My name
For a picture to take
If it happens everyday
Will there be a picture left To snap?
Or will my face just detach itself
And get caught up in the Public eye?
Let it take mine

It feels just like
It feels just like making Love to the camera
It feels just like
It feels just like making Love, making love

If what goes on here
Doesn't stay in this room
We're gonna spread the words
Still leaving room to grow
And if we blossom
As high as the questioned Trees
I swear I'll still be the same
As I was as a seed

And if these branches hold a Leaf
The hold convictions, I Believe
And this is the beginning of Something
Too strong to break now

It feels just like
It feels just like making Love to the camera
It feels just like
It feels just like making Love, making love
Love

It felt just like
It felt just like making love To the camera
It felt just like
It felt just like making Love, making love
