Last night didn't go to plan  
ended before 9  
drove u home u slammed the door  
not your fault but mine

i often wonder why i say  
the things i shouldnt say  
but then again its always me  
who has to ruin the day

i throw the stone to break your heart  
and watch the pieces fall  
im on my knees to pik them up  
why did they fall at all?

i often wonder why i say  
the things i shouldnt say  
but then again its always me  
who has to ruin the day

wells in your eyes are killing me  
i cannot bare to see  
wells in your eyes are killing me  
tears that shouldnt be.

i often wonder why i say  
the things i shouldnt say  
but then again its always me  
who has to ruin the day...
