Waited a hundred years to see your face
And I would wait a hundred more
If only to be near you
To have you and to hear you
Isn't that what time is for?

I sailed a thousand ships in search of you
Traveled to distant lands
Dove for sunken gold, I
Took what I could hold, but you're
Still the greatest treasure I've held in my hands

My love
The reason I survive
Trust we'll be together soon
Should our fire turn to dark
Take my heart with you

A tattered photograph my pocket holds
I keep you secretly
I've studied every line, you're
Etched upon my mind for
Not a million soldiers could take you from me

My love
The reason I survive
Trust we'll be together soon
Should our fire turn to dark
Take my heart with you

My love
Te reason I survive
Take my heart with you
Take my heart with you
