So many questions around  
Answers that can not be found  
Is there a way out of here  
From all the pain and fear

The search to find someone  
Who you can rely upon  
it's me that you will find  
Reach out and read my mind

What will it take  
What will you do

[chorus]  
What will it take for you to see  
What will it take for you to really feel me  
What will you do for peace of mind  
The answers are here just read my mind

[chorus]  
What will it take for you to see  
What will it take for you to really feel me  
What will you do for peace of mind  
The answers are here just read my mind

Just read my mind

The search to find someone  
Who you can rely upon  
it's me that you will find  
Reach out and read my mind

[chorus]  
What will it take for you to see

What will you do for peace of mind  
The answers are here just read my mind

Just read my mind

Don't just stand there patiently

Let's get to and take the lead  
If you wanna be with me  
Learn to read me carefully

What will it take  
What will you do

Read my mind

[chorus]  
What will it take for you to see

What will you do for peace of mind
