It's buried deep within the past  
I hope it doesn't last  
It's something I already chased  
I already chased  
I try to give it all away  
But it's never gonna fade  
It's something I don't wanna face  
I don't wanna face  
I know you feel it's all the same  
But I promise that i'll change  
It's something I already chased  
I already chased  
You know I'm trying to believe  
That you're never gonna leave  
It's something I don't wanna face  
I don't wanna face  
There's nothing left!  
The fear is gone  
Oh, my heartstrings come undone  
I will wait for you  
Pray for you  
Before I make my final run  
I will stay with you  
Decay with you  
I know I'm not the perfect one  
The pain has just begun  
It's something I already chased  
I already chased  
You bring me to a better path  
It's everything I asked  
It's something I don't wanna face  
I don't wanna face  
There's nothing left!  
The fear is gone  
There's nothing left!  
The fear is gone  
Oh, my heartstrings come undone  
I will wait for you  
Pray for you  
Before I make my final run  
I will stay with you

Decay with you
