Into this world little boy brave  
Charity heart faithfully plays  
Heal the scars unto his eyes

Salvage the goodness of dreams  
never lived dreams never died  
Again and again again and again  
haunted by the trust of a child

With no place to go now little boy brave  
Wanders the streets faithfully plays  
But his broken arrows once filled with pride

Salvage the goodness of dreams  
never lived dreams never died  
Again and again again and again  
haunted by the trust of a child

Never give in never give up little boy  
brave never lived never died

Appears to be blind revolution mad  
The mercy ends where the mercy began  
Seems justified I'm turnin' this around  
Jawbreaker lawmaker have in your way

Campaign smokescreen glorifies the mainstream  
Cities on remote control  
Meanwhile vigilante gangs dig their fangs into the  
streets  
They've overthrown  
While plastic faces run for king of this disassociation  
land  
I'm dying to find anyone who understands

Behold one more Blind Revolution Mad  
One more chance of a lifetime

Rage runs rampant always been abandoned  
Killin' for some pocket change  
Blames being force fed rules governed by fools  
Slammin' you against the grain

And the nation's glued to CNN to watch their own  
creation

Behold one more blind revolution mad  
One more chance of a lifetime, no no  
One more blind revolution mad

Fee fi fo fum  
(One for all and all for one)  
Don't try to stop me  
(Yeah I've already gone crazy)

Now one for all and all for one  
(Overthrow your kingdom come)  
Don't try to stop me  
(Cause you're the reason I'm crazy)

Behold one more blind revolution mad  
One more chance of a lifetime, no, no  
One more blind revolution mad  
(Mind in the gutter turned another boy bad)

Oh behold one more blind revolution mad  
One more chance of a lifetime  
One more blind revolution mad  
One more blind revolution
