Angel wore a green bar for a living  
Sleeping in the sand every-night  
Cindy's holding protests  
But it ain't no use to blame  
Both sides feel the pain tonight  
Hold yourself real tight  
Deny...  
Votes down, now fight!

The ground bleeds fire, hope they're watching my back  
Eyes burning and my muscles eat glass  
Kiss my frag, hope it sets me free  
As I pray to the sky

Breakdown the door with a one legged huh!  
Graduate, now you've worn your gun in  
Now you're one...  
Best be prayin' to the sky

You're dancing out your head, a free fall....

You see your angel flying  
Your heart is dying  
You never saw it coming  
Might be right up ahead

Chasing a shadow that's moving through ash  
You hold her in your minds as your way to get back  
home  
And she prays to the sky  
While the frozen shock lights the back of your face  
Only seen the sun for a hundred and two days  
Hits you right between the eyes

You're dancing out your head, a free fall...

You see your angel flying  
Your heart is dying  
Will you see it coming?  
Might be right up ahead

Now many ways can you hold on

If you know I believe in you?

The ground bleeds fire and your eyes burn green  
But you gotta believe that we're all born free  
Not just left to do or die

You're dancing out your head, a free fall...

You see your angel flying  
Your heart is dying  
Will you see it coming?  
Might be right up ahead
