"We Three Kings"

Visit "[We Three Kings](#)" on MotoLyrics.com

Take Christ outta Christmas and the point they gonna miss
Bout how a Holy Infant's forgiveness closed the distance, and now that business is finished
I'm not livin' for the moment, living for the king who was chosen
To leave his throne from heaven, to give hope to the hopeless

This where electronic meets hip-hop
Don't get it twisted ain't tryna make your hip-hop
Aint about passing the time like tick tock,
Pointin you to the one who is eternally on top
Real talk
We oughta praise His name nonstop,
Shoulda been us on that cross,
Innocent man took our spot
Three nails and a grave couldn't hold him,
Music is His so we takin back what the enemy has stolen

Hallelujah, Lord of all
King of Kings, You gave it all
Liberate us from the night
And guide us to Your perfect light

Yeshua, Hallelujah

Hallelujah, Lord of all
King of Kings, You gave it all
Liberate us from the night
And guide us to Your perfect light

Listen up if you feel broken
Matter fact even if you feel golden
Time we surrender our life to the king of all kings cuz his love and his power is potent
Forget wealth Jesus more important,
Bow down at his feet and accept Him like a promotion
You livin for the nicest clothes and cars?

We livin for the creator of the skies and oceans

Forget your ego, I know the One who's infinite
Think you super-man? My Savior's got the
kryptonite
If you think you a king, lay down your crown to the one
that was heaven-sent
In eternity its irrelevant whether you were peasant or
president
I got royalty in me, we interconnected
It's a cold world, but His peace got me winter-
protected
Not always accepting the message, it's a struggle
and fight
Lord I know you got this in sight, help us lead them to
your perfect light

Hallelujah, Lord of all
King of Kings, You gave it all
Liberate us from the night
And guide us to Your perfect light

Yeshua, Hallelujah
