"Ecstasy"

Love is not supposed to be psychology
so do you love me?
go make up your mind
Love is my weakness, I never knew you wanted me
now im the one
thats taking up your time

CHORUS

What you want to do?
Just love: me and you
Let ecstasy come thru...
Youre never far from home
your love is free to roam
let ecstasy come thru

Love is a game right now it has the best of me
I didnt want to play
but i didnt have a choice
The sound of your name, right now, to me means
everything
i dialed up your cell phone
just to hear your voice
The times we've had together will be in memory
I love to see you smile
I love to smell your smell
I hope this lasts forever
maybe when we're 23
we'll be taking
our kids to show and tell
