CHORUS

Behind the mirror
you can find the truth
behind the mirror
you could nothing lose
now look into the mirror
and you will see - what's to do.
You've walked so many years
on the darkside of life
your friedes warned you
but you think that's just a lie
now it's time to learn how to fly
to understand what's the real lie
You talkin' trash
and all things you did are all so bad,
now open your eyes
and will see
that's not your life not your life

CHORUS - repeats

If you walk into the light
you will see

it's great to stay alive

and it's great to be

what you are

A simple world

but you ...

You talkin' trash

and all things you did

are all so bad,

now open your eyes

and you will see,

that's not your life

not your life.

CHORUS - repeats

but you talking just trash

open your heart
