I know it will never  
be as one again  
and I do believe  
it's for the best

Even though I don't understand  
how somethings as good  
as our love could en this way

There are so many questions  
and there will always be  
so many questions,  
unanwsered to me

**CHORUS**

Please don't say goodbye  
think about the time we shared  
I can't believe, it all ended so fast  
so please don't let every things fade away  
I'd rather make you to stay  
'cause I don't think "I" could ever say goodbye

The time we shared  
felt like heaven to me  
and I don't think I'm able  
to live without your near

so I hope you're not gone for good  
I hope you'll give our love another chance in time  
'cause you should know that we belong together  
so please don't say goodbye

**CHORUS - repeats**

so please don't say goodbye  
GOODBYE
