

Stee "EXHALE"

Visit "[EXHALE](#)" on MotoLyrics.com

It's time to exhale
it's time to breath again
Every night when I close my eyes
I dream about you
about you - my mystery guy
but when I wake up
There's no one to found
and my heart is still lying
on the lonley ground

BRIDGE

My broke heart
never be as one part

I can't believe
the truth is so hard

CHORUS

It's time to exhale
and to breath again
love is a important thing
out not important enough
to die for it
so believe in me

it's time to exhale

Everytime when I look out of my window

I think about you

about you - my true love

always when I stand up

and go out to found you

I just find a lot of more hearts

on the dirty ground

BRIDGE - repeats

CHORUS - repeats 2x
