CHORUS

Hit me right

I know you hit me right

hit me right

you do it all night

hit me right

I know you hit me right

hit me right

you do it all night - long

Baby you know

that's you I'm talking to

the way you touch me

you know

the only thing I need is you

you are the answer to all my questions

you are the only thing

you are everything

CHORUS - repeats

Honey you know

that my smile is just for you

the way that I feel

you know you need me too

I'm your

and you are mine

you know that will be

for ever my baby

CHORUS - repeats

Now hit me, hit me, hit me right

-yeah-

hit me, hit me, hit me every night

and everyday

-yeah- baby

CHORUS - repeats

-yeah- baby
