CHORUS

I'm in love again

I can't believe it

I'm in love again

love is what I feel [so deep]

so share my deepest needs [with me]

again, again and again

Don't you believe

that a wonder is coming true

'cause what I see

when I look into your eyes

[it's more than a simple friendship]

[it's more than just a song]

my heart is yours - if you want

my love could stay for ever

if you feel like me

CHORUS - repeats

Could you say

what I want to hear

how could this be

you are still close to me

[it's more than a simple love]

[it's more than just one of this crazy ride]

my life is yours - if you want

my heart will always be - yours

if you want too

All what I've ever wanted in my life

is coming up to me now

I know your love will never fade away

our love is ment to stay

CHORUS - repeats

Always love each other
