"Treat Her Gently - Lonely Old People"

Visit "[Treat Her Gently - Lonely Old People](#)" on MotoLyrics.com

Treat her gently, treat her kind, she doesn't even know
her own mind
Treat her simply, take it slow, make it easy and let her
know
You'll never find another way.
Here we sit, two lonely old people,
Eaking our lives away
Bit by bit two lonely old people
Keeping the time of day
Here we sit out of breath and nobody asked us to play
- Old People's Home for the day - nobody asked us to
play
Treat her gently, treat her kind, she doesn't even know
her own mind
Treat her simply, make it slow, take it easy and let her
know
You'll never find another way
