You warned me that I wasn't ready for this.
How can anyone be it?

And so this is our chance to know.
Say good-bye before you go.

You're holding me down, holding me down
Making me drown.
You're holding me down, holding me down
Making me drown.

I'm bleeding from sores I cannot heal.
It took so long and now you feel.

This is your world that I live in.
I won't bend to this again.

You're holding me down, holding me down,
making me drown.
You're holding me down, holding me down!

Fuck!

holding me down, holding me down,
you're making me drown. You're holding me down,
holding me down...

holding me down, holding me down,
you're making me drown.
You're holding me down, holding me down,
you're making me drown!

Fuck!
