you're bleeding on something to better  
yourself all alone  
I'm better than this  
I feel special  
I'm sick of the role  
because you're mixed up  
you make yourself "so cool"  
you can save me from  
your sentimental cure  
I wanted to be by myself now  
I'm sick of the role  
you better believe that I'm over  
your every day  
because you're mixed up  
you make yourself "so cool"  
you can save me from  
your sentimental cure  
you're mixed up  
you make me feel  
exactly the way you wanna feel  
you're mixed up  
you make yourself "so cool"  
Cuz you're mixed up  
You make yourself so cool  
You save me from  
Your sentimental cure
